# Antarctica. Itineraries

# Antarctica Classic

The Antarctic Peninsula is anything but a world of white desolation. Join us on a true adventure to a world of immense scale and visual splendour. Passing huge icebergs in the flat calm of a polar morning will reshape the way you look at your world. Encounter huge whales, enormous rookeries of penguins, and stunning landscapes few have ever witnessed. This 11-day expedition will introduce you to the magic of the South Shetland Islands and the Antarctic Peninsula.

Nature is the tour guide: Sea, ice, and weather conditions will affect your flights and trip itinerary. Embrace the unexpected!

## DAY 1 - EMBARKATION OF THE G EXPEDITION

In the afternoon, join your fellow passengers to take your group transfer and begin your journey on the G Expedition. Please refer to your welcome letter or the joining instructions posted in the lobby of the start hotel. Make sure you have your passport handy as you are about to embark on the adventure of a lifetime.

## DAYS 2-3 - DRAKE PASSAGE/SOUTH SHETLAND ISLANDS

The G Expedition is at home in this part of the Southern Ocean, known for the unimpeded never ending fetch of the winds that encircle the Antarctic.

As the Expedition crosses the passage there will be time to become acquainted with the ship and frequent the common areas that include the lounge, dining hall, library and lecture hall where we meet our guides, ship's crew and expedition staff.

Begin lectures and information sessions to learn the extraordinary human and natural history of the Antarctic region

## DAYS 4-7: SOUTH SHETLAND ISLANDS/ANTARCTIC PENINSULA

Experience some of the most unique wildlife viewing and inspiring scenery in the world while setting foot on the Antarctic continent. Attempt two shore landings per day (weather permitting) and encounter Gentoo, Chinstrap and Adélie penguin rookeries, Weddell, crabeater and leopard seals, and orca, humpback and minke whales in the cold Antarctic waters. During the voyage, learn about the peninsula's remarkable history.

This is what we've all been waiting for - a chance to explore step foot on the Great White Continent! Over the next 4 days the Expedition will navigate southwards making stops in the South Shetland Islands then through the Bransfield Strait and to the Antarctic Peninsula. Our goal is to attempt two excursions per day while navigating through the area but the itinerary and daily schedule will be based on the local weather and ice conditions.

During the voyage, learn about some of the most important and dramatic expeditions to this remote corner of the world.
